

SÜDTIROL ULTRA SKYRACE

26 // 27 // 28 AUGUST 2022

SOUTH TYROL ULTRA SKYRACE 2021 WITH COVID - 19 MEASURES

We, the organizers of the extreme mountain running along the horseshoe tour in the Sarntal Alps, are defying the corona pandemic and will be running the South Tyrol Sky Marathon (44.5 km / 2863 meters) on the original route and the South Tyrol Sky Trail (27 August) on Saturday, August 28th km / 1800 vertical meters) with the route reversed as planned.

The pandemic makes an additional security concept necessary

For the special edition of the Südtirol Ultra Skyrace, an additional security concept was developed due to the corona pandemic.

In order to prevent the athletes, volunteers, visitors and organizing committee from becoming infected, the following measures must be considered:

- Implementation of the current COVID-19 regulations at the event
www.suedtirol.info/en/information/coronavirus/arrival
- Presentation of the European Greenpass or PCR-test or antigen-test (not older as 48 hours) for all those directly involved
- Mask and 1 meter distance
- Delimitation of the participants in the start and finish area
- Controls at entrances and exits
- Only packaged supply products on the route and in the finish area
- Information list with local test options (pharmacies) – we suggest to contact the pharmacies via phone, in case a reservation is necessary:
www.asdaa.it/it/covid19/test-antigenico-presso-soggetti-aderenti.asp
- Information to all first aid stations, emergency organization and mountain rescue about the event with regard to COVID-19.
